

Double Belt Grinder

Our HBG-220 is Double Belt Grinder used for flat Coarse grinding prior to fine grinding. In this specimen can grind in 60,80 or 120 grit grinding paper after cutting or moulding operation For obtaining a highly reflective surface which is free from scratches and deformation.

We are a well-renowned manufacturer, exporter and supplier of a wide range of the best quality Belt Grinder that is designed for initial rough grinding. In order to manufacture this polisher as per the prevalent industry norms, our seasoned professionals use superior quality raw material and cutting-edge technology at our sophisticated manufacturing unit. It is useful to remove light metallurgical damage in the specimen surface during cut-off operation

TECHNICAL SPECIFICATIONS	HBG-220
Model Type	Table Top Model
Main Motor	1 HP, 1440 RPM, Three Phase, Double End Pulley
Grinding Belt	2- Endless Belt Size 100mm x 915 mm
Belt Release mechanism	Constant Release Mechanism
Power source	440V with Neutral, Three Phase
Dimensions	650 x 590 x 370mm
Weight	85 KG (Approx.)
