

ILLUMINATED MAGNIFIER

DESCRIPTION:-

An illuminated Magnifier is a multipurpose inspection instrument used for varied applications, like for visual inspection of PCBs, sheet, metal components, mechanical parts, plastics and other precision engineering components.

The magnifier is fitted with 145mm dia aberration-free 5X lens. It gives fatigue-free stereoscope view equipped with round floor sent tube which has a shadow-less illumination, works on 220V mains.

TTM-150 is a tabletop magnifier where CTM-150 can be clamped on tabletop, which allows sufficient free space on the table for working.
