

TOUCH SCREEN DOUBLE DISK POLISHING MACHINE

DESCRIPTION

Model **MBP-2S** is a newly designed touch screen type metallographic specimen grinding and polishing machine which is equipped with double discs and features step-less speed changing. It can realize the whole process of rough grinding, fine grinding, rough polishing, and finishing polishing for specimen preparation. This machine features easy operation and economical application. It is the ideal specimen-preparing instrument for use in factories, scientific research institutes, and laboratories of colleges.

FEATURES:

- Touch-type LCD screen operation. The rotating speed is displayed on LCD directly.
- Grinding and polishing time is adjustable from 0 to 1000 seconds.

- There are two working conditions for this model: the step-less speed changing status or four-level constant speed status. The working conditions can be switched from one to another easily.
- The rotating direction of the working disc can be chosen at will.
- Four-level constant speed: 150, 300, 600, 800 rpm.
- Step-less speed changing from 50 to 1000 rpm.
- This model is designed and manufactured as per international advanced specimen-preparing technology.
- Equipped with a beautiful appearance machine shell and stainless steel parts which never rust.

TECHNICAL SPECIFICATIONS:

Model No.	MBP-2S
Rotating speed of the working disc	50-1000 rpm (step-less speed changing) or 150 /300/600/800rpm (four-level constant speed)
Diameter of working disc	200mm/250mm
Power Supply	Single phase, 220V,50Hz
Motor power	YSS7124,550W
Dimensions	870 X 760 X 560 mm
Net Weight	45 Kg
